Although Capital Impact offers a variety of debt products to its borrowers at different stages of the borrower's life cycle, as more fully described below, a typical loan is one that is secured by a first lien on commercial real estate. Because borrowers in Capital Impact's sectors are often unable to obtain financing at competitive rates directly from conventional lenders, such as regulated retail or commercial banks, Capital Impact prides itself on sourcing and providing capital to mission-oriented borrowers at competitive rates and/or on terms that are generally more flexible than those that may be available to the borrowers in the traditional capital markets.**

Capital Impact offers the following loan products to organizations operating in or supporting the community healthcare, education, affordable housing, and community development sectors: revolving lines of credit, working capital financing, bridge financing, construction and renovation loans, tenant improvement loans, real estate acquisition loans, predevelopment loans, permanent loans, and equipment loans.**
